

FAST OVEN CONVECTION MICROWAVE AND IMPINGEMENT MODES WITH HUMIDIFICATION SYSTEM

REAL QUALITY. Internal humidification system with integrated steam generation for soft and delicate cooking.

COMPACT DESIGN. Perfect for 60 cm countertops, with minimal height and depth footprint.

NO HOOD. Zero smoke, zero odors, zero noise. Red Flash eliminates smoke and odors at the source, keeping the work environment clean, quiet, and comfortable for both staff and customers.

LONG LIFE. Double magnetron technology with synchronous or alternating operation for maximum power and consistent performance. In the event of a magnetron failure, the system is programmed to continue operating with the other one, ensuring uninterrupted service and no downtime.

FLASH CLEANING. Integrated steam cleaning system removes residues, reducing machine downtime.

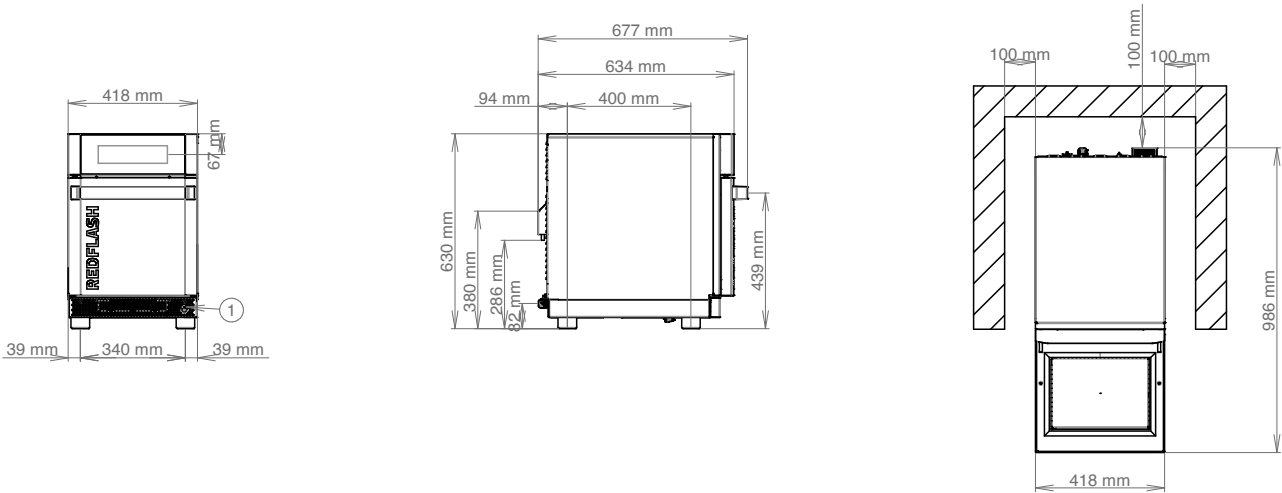

FLASH DISPLAY. Multilingual touch display and simple controls for immediate operation, reducing training time and the risk of errors.

EKA CLOUD. You can monitor and manage Red Flash remotely: update recipes, control parameters, and analyze consumption in real time.

FLASH STYLE. Choose from stainless steel, black, red, or white: a design that matches your concept and enhances the environment.

FLASH START. Plug & play installation: ready to use with no additional work or complex connections required.

BRUSHLESS MOTOR. High efficiency with multi-speed levels and bidirectional rotation: less wear, lower maintenance, and consistent ventilation over time.

DIMENSIONAL FEATURES

Oven dimensions (WxDxH mm)	420	632,5	630
Oven weight (kg)	60		

ELECTRICAL FEATURES

Power supply (kW)	3,68
Frequency (Hz)	50/60
Voltage (Volt)	AC 230 V (1L + 1N + T)
N° of motors	1 Bidirectional
Protection against water	IPX3

FUNCTIONAL FEATURES

Power	Electricity
Capacity	N° 1 (25x30)
Type of cooking	Ventilated Microwave
Cooking chamber	AISI 304 Stainless steel
Temperature	50 - 270°C
Temperature control	Digital probe
Control panel	Touch Screen
Programmable cooking steps	4
Pre-heating temperature	180°C
Pre-heating function	Available
Door	Tilt opening
Modularity	Available

EQUIPMENT

USB port
Wi-Fi

PLUS

Ethernet device (on request)
